RECOGNIZED AS THE  
**GOLD STANDARD IN HEALTH AND WELLNESS**

**LIGHTS OUT PHILLY**  
Now through November 15

we are asking you to once again turn off unnecessary office lights between midnight and 6 a.m.

Save the Birds • Save Energy  
Reduce Operating Costs

Sign Up at [birdsafephilly.org](http://birdsafephilly.org)

- **Save Birds** A simple action like turning out lights can help birds navigate our environment and protect them, potentially reducing deaths up to 80%.
- **Save Money** Adjustments to lighting choices and usage are one of the single most effective ways to reduce your energy costs.
- **Save the Environment** The Lights Out programs helps reduce pollutants, such as carbon dioxide, and help moderate the impact of climate change.
- **Take Action** Turn off all unnecessary lighting during migration season, especially upper level, lobby, atrium and exterior lights. That includes flood lights, decorative lights, and event and spotlights. In offices, turn off ceiling and lights close to windows.

Thank you to all those that make **Lights Out Philly** an annual success!
